EU: Regulation 10/2011
ADDID® 900 is not in compliance with above mentioned regulation.

Germany: BfR Recommendations
ADDID® 900 complies with the Recommendation of the BfR (former BgVV) LII. Fillers for commodities made of plastic when used as a coating for fillers at a maximum use level of 0.5%.

Switzerland: SR 817.023.21
ADDID® 900 is in compliance with the “Ordinance of the FDHA on Materials and Articles (SR 817.023.21)” – status 1 May 2017. All components (additives and / or monomers) are listed in Annex 10 in the lists for not evaluated (B) substances.

USA: FDA Regulations
This product can be used in compliance with the following sections and may be subject to any applicable limitations:
FDA 21 CFR 175.105, FDA 21 CFR 175.300.
ADDID® 900 is suitable for use under the following sections of FDA 21 CFR:
§175.105 (ADHESIVES) (FR Feb. 27, 1968).
§175.300 (RESINOUS AND POLYMERIC COATINGS for use in coatings at a level not to exceed 1.3% by weight of the resin when such coatings are intended for repeated use in contact with nonacid aqueous products, acid aqueous products or aqueous, acid or nonacid products containing free fat or oil that are hot filled or pasteurized above or below 150°F or room temperature filled and stored or refrigerated stored with no thermal treatment in the container or when such coatings are intended for repeated use in contact with low-moisture fats and oils; nonalcoholic beverages, beverages containing up to 8% alcohol or beverages containing more than 8% alcohol; bakery products or dry solids with the surface containing no free fat or oil that are room temperature filled and stored or refrigerated stored with no thermal treatment in the container. Use is limited to coatings for tanks with a capacity greater than 530,000 gallons (FR Sept. 20, 1995).
Furthermore the extraction limit of 18 mg/inch² given in §175.300 has to be met by the final coating in which it is to contact food.

§ 177.1390 LAMINATE STRUCTURES FOR USE AT 250°F AND ABOVE (max. 3% in polymer)
§ 177.1395 LAMINATE STRUCTURES FOR USE BETWEEN 120°F AND 250°F (max. 3% in polymer)
In the following sections the product is not listed itself but suitability determination is applicable by cross referencing provided that the limitations under 175.300 are followed.

§176.170 COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH AQUEOUS AND FATTY FOODS
§176.180 COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH DRY FOOD
Finished food contact materials or articles containing this product as a component, need to comply inter alia with migration and/or extraction limits or any other restrictions – as specified in the applicable regulations. Verification of compliance with above mentioned limits/restrictions should be carried out in accordance with the respective rules. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable). In case of provided values these are considered to be typical concentrations and are not part of product specification.

Furthermore, the given information is intended for persons having the required skill and know-how and it does not relieve you from verifying the suitability of the information given for a specific purpose prior to use by testing, which should be carried out only by qualified experts. Use or application of such information is at your sole responsibility and risk, without any liability on the part of Evonik Resource Efficiency GmbH.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.

In case of any questions concerning the provided information or if you need additional advice you are welcome to contact us:
