EU: Regulation 10/2011

TEGO® Dispers 740 W is in compliance with EU–Regulation 10/2011 on plastic materials and articles intended to come into contact with food and its amendments, and is subject to Specific Migration Limits.

BfR Recommendation

TEGO® Dispers 740 W is in compliance with BfR–Recommendation XIV (polymer dispersions) and BfR XXXVI (paper & paperboard), and is subject to Specific Migration Limits.

Switzerland: SR 817.023.21

TEGO® Dispers 740 W is in compliance with the “Ordinance of the FDHA on Materials and Articles (SR 817.023.21)” – status 1 May 2017. All components (additives and / or monomers) are listed in Annex 10 in the lists for evaluated (A) substances.

Please note that some of the components of TEGO® Dispers 740 W do not have any SML or restriction/ specification, while others do.

China: GB 9685 – 2016

TEGO® Dispers 740 W is in compliance with the GB 9685 – 2016 and can be used in the following applications, and is subject to Specific Migration Limits:

- paper
- rubber
- plastic
- printing ink
- adhesive coating
USA: FDA

This product may be used in compliance with the following sections and may be subject to any applicable limitations:

- 21 CFR 175.105
- 21 CFR 175.300

Product is in compliance with 21 CFR 176.180 without restrictions. Product also compliant with 21 CFR 176.170 but only for nitrocellulose coatings: use only as an emulsifier in nitrocellulose coatings for paper and paperboard intended for use in contact with food only of the types identified in paragraph (c) of this section, table 1, under Types IV A, V, VII A, VIII, and IX; and limited to use at a level not to exceed 8 percent by weight of the coating solids.
Finished food contact materials or articles containing this product as a component, need to comply inter alia with Overall Migration Limit (OML) requirements – as specified in the regulations. Verification of compliance with migration limits (OML and SML) should be carried out in accordance with the rules laid down there. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance with the OML/SML requirements under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).

In case of provided values these are considered to be typical concentrations and are not part of product specification.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.
