Please note that some of the components of TEGO® Foamex 810 do not have any SML or restriction/ specification, while others do.

USA: FDA

TEGO® Foamex 810 may be used in compliance with 21 CFR 175.105, if used as a defoamer up to max. 3290 mg/sqm.

TEGO® Foamex 810 may be used in compliance with 21 CFR 175.300 up to max. 1465 mg/sqm.

TEGO® Foamex 810 may be used in compliance with 21 CFR 176.170 and 21 CFR 176.180, if used as a defoamer up to max. 1465 mg/sqm.
Finished food contact materials or articles containing this product as a component, need to comply inter alia with Overall Migration Limit (OML) requirements – as specified in the regulations. Verification of compliance with migration limits (OML and SML) should be carried out in accordance with the rules laid down there. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance with the OML/SML requirements under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).

In case of provided values these are considered to be typical concentrations and are not part of product specification.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.
