EU: Regulation 10/2011

TEGO® Foamex 830 as an additive is not in compliance with EU–Regulation 10/2011 on plastic materials and articles intended to come into contact with food and its amendments, as active component is not included in the Union List.

The active component of TEGO® Foamex 830 is polymeric additive and only the monomers are listed in the Union List with (group) restrictions.

Please note that the other components used in TEGO® Foamex 830 are listed in EU–Regulation 10/2011 and do not have any restriction/ specification.

BfR Recommendation XIV and XXXVI

TEGO® Foamex 830 is in compliance with BfR Recommendation XIV (polymer dispersions) if used as a defoamer.

The active compound is a high molecular weight polymer for which SML–Restrictions acc. to Reg. (EC) 10/2011 apply.

Please note that the other components used in TEGO® Foamex 830 are listed in BfR Recommendation XIV (polymer dispersions) and do not have any restriction/ specification.

TEGO® Foamex 830 is in compliance with BfR Recommendation XXXVI (paper & paperboard) if used as production aid/sizing agent according to Chapter B production aid, part I. sizing agent No.10 Plastic dispersions.

Switzerland: SR 817.023.21

TEGO® Foamex 830 is in compliance with the “Ordinance of the FDHA on Materials and Articles (SR 817.023.21)” – status 1 May 2017. All components (additives and / or monomers) are listed in Annex 10 in the lists for evaluated (A) substances.

Please note that some of the components of TEGO® Foamex 830 do not have any SML or restriction/ specification, while others do.
China: GB 9685 – 2016

TEGO® Foamex 830 is not in compliance with GB 9685.

USA: FDA

TEGO® Foamex 830 is formally not in compliance with FDA 21 CFR. However, low exposure exemptions may be possible.
Finished food contact materials or articles containing this product as a component, need to comply inter alia with Overall Migration Limit (OML) requirements – as specified in the regulations. Verification of compliance with migration limits (OML and SML) should be carried out in accordance with the rules laid down there. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance with the OML/SML requirements under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).

In case of provided values these are considered to be typical concentrations and are not part of product specification.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.

In case of any questions concerning the provided information or if you need additional advice you are welcome to contact us:
