EU: Regulation 10/2011
China: GB 9685 – 2016
TEGO® Glide 432 is not in compliance with the above mentioned regulations.

Germany: BfR Recommendations
TEGO® Glide 432 is in compliance with above mentioned regulation, if used as additive.

Switzerland: SR 817.023.21
TEGO® Glide 432 is in compliance with the “Ordinance of the FDHA on Materials and Articles (SR 817.023.21)” – status 1 December 2019. All solvents, monomers and other starting substances used in the manufacture of TEGO® Glide 432 are listed in Annex 10 in the lists for evaluated (A) substances.
Some of those substances are subject to specific restrictions or requirements.

USA: FDA Regulations
TEGO® Glide 432 may be used in compliance with 21 CFR 175.105, if used as an additive.
Furthermore it may be used in compliance with 21 CFR 176.170 and 21 CFR 176.180, if used as additive.
TEGO® Glide 432 is formally not in compliance with 21 CFR 175.300. FCN or opinion letter may be possible.
Finished food contact materials or articles containing this product as a component, need to comply inter alia with Overall Migration Limit (OML) requirements – as specified in the regulations. Verification of compliance with migration limits (OML and SML) should be carried out in accordance with the rules laid down there. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance with the OML/SML requirements under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).

In case of provided values these are considered to be typical concentrations and are not part of product specification.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.

In case of any questions concerning the provided information or if you need additional advice you are welcome to contact us:
