EU: Regulation 10/2011
Switzerland: SR 817.023.21

SILIKOFTAL® HTL 1 is not in compliance with above regulations.

BfR Recommendation XV

The active ingredient of SILIKOFTAL® HTL 1 is listed in BfR Recommendation XV (silicone).

SILIKOFTAL® HTL 1 may be used in compliance with BfR Recommendation XV (silicone) under the following provisions:
   a. Proper curing of the resin system
   b. Complete evaporation of the solvent

China: GB 9685–2016

Safety testings on a comparable polymer have been conducted in order to evaluate concerns about migration of unwanted substances into food. The tests were run in a third party laboratory.
The test methods specified in GB 4806.10–2016 National Food Safety Standard Paint and Coating for Food Contact have been followed. Based on these test results and the composition of the products we consider the use of SILIKOFTAL® HTL 1 in food contact coatings as safe.

USA: FDA

This product may be used in compliance with the following sections and may be subject to any applicable limitations:

- 21 CFR 175.300
Finished food contact materials or articles containing this product as a component, need to comply inter alia with Overall Migration Limit (OML) requirements – as specified in the regulations. Verification of compliance with migration limits (OML and SML) should be carried out in accordance with the rules laid down there. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance with the OML/SML requirements under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).

In case of provided values these are considered to be typical concentrations and are not part of product specification.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.
