EU: Regulation 10/2011
Switzerland: SR 817.023.21

SILIKOFTAL® HTL 2/MPA is not in compliance with above mentioned regulations.

BfR Recommendation XV

The active ingredient of SILIKOFTAL® HTL 2/MPA is listed in BfR Recommendation XV (silicone).

SILIKOFTAL® HTL 2/MPA may be used in compliance with BfR Recommendation XV (silicone) under the following provisions:
   a. Proper curing of the resin system
   b. Complete evaporation of the solvent

China GB 9685 – 2016

Safety testing with SILIKOFTAL® HTL 2/MPA have been conducted in order to evaluate concerns about migration of unwanted substances into food. The tests were run in a third party laboratory.

The test methods specified in GB 4806.10–2016 National Food Safety Standard Paint and Coating for Food Contact have been followed. Based on these test results and the composition of the product we consider the use of Silikoftal HTL 2/MPA in food contact coatings as safe.

USA: FDA

SILIKOFTAL® HTL 2/MPA may be used in compliance with FDA:
   - 175.105
   - 175.300
Finished food contact materials or articles containing this product as a component, need to comply inter alia with migration and/or extraction limits or any other restrictions – as specified in the applicable regulations. Verification of compliance with above mentioned limits/restrictions should be carried out in accordance with the respective rules. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable). In case of provided values these are considered to be typical concentrations and are not part of product specification.

Furthermore, the given information is intended for persons having the required skill and know–how and it does not relieve you from verifying the suitability of the information given for a specific purpose prior to use by testing, which should be carried out only by qualified experts. Use or application of such information is at your sole responsibility and risk, without any liability on the part of Evonik Resource Efficiency GmbH.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.

In case of any questions concerning the provided information or if you need additional advice you are welcome to contact us:
