EU: Regulation 10/2011

BfR Recommendation XIV

China: GB 9685– 2016

TEGO® Rad 2100 is not in compliance with above mentioned regulations.

Switzerland: SR 817.023.21

TEGO® Rad 2100 is in compliance with the “Ordinance of the FDHA on Materials and Articles (SR 817.023.21)” – status 1 May 2017. All components (additives and / or monomers) are listed in Annex 10 in the lists for evaluated (A) or not evaluated (B) substances.

Please note that some of the components of TEGO® Rad 2100 do not have any SML or restriction/ specification, while others do.

USA: FDA

TEGO® Rad 2100 may be used in compliance with FDA 21 CFR 175.105 up to max. 2365 mg/sqm, the adhesive is separated from the food by a functional barrier.

TEGO® Rad 2100 may be used in compliance with FDA 21 CFR 175.300, 21 CFR 176.170 and 21 CFR 176.180, if at a maximum level of 1.3 milligram per square inch (mg/in²), in contact with all food types under conditions of use E, F, G, and H as defined in 21 CFR 176.170, Table 2.

Conditions of use defined in Food Contact Notification No. 41.
Finished food contact materials or articles containing this product as a component, need to comply inter alia with migration and/or extraction limits or any other restrictions – as specified in the applicable regulations. Verification of compliance with above mentioned limits/restrictions should be carried out in accordance with the respective rules. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable). In case of provided values these are considered to be typical concentrations and are not part of product specification.

Furthermore, the given information is intended for persons having the required skill and know–how and it does not relieve you from verifying the suitability of the information given for a specific purpose prior to use by testing, which should be carried out only by qualified experts. Use or application of such information is at your sole responsibility and risk, without any liability on the part of Evonik Resource Efficiency GmbH.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.
