*) In order to avoid any conflicts with REACh, please make sure that you will be supplied in the future with material manufactured within the European Economic Area (EEA) or imported into the EEA by Evonik Resource Efficiency GmbH in close cooperation with your European Evonik Resource Efficiency supplier contact. In case you purchase this product from outside of EEA and plan to import this to EEA, please be aware of your duties according to REACh regulation.

Scandinavian Product Register

For registration request please contact us.

Spanish Poison Center (INTCF)

For registration request please contact us.

FOOD CONTACT STATUS

Finished food contact materials or articles containing this product as a component, need to comply inter alia with Overall Migration Limit (OML) requirements – as specified in the regulations. Verification of compliance with migration limits (OML and SML) should be carried out in accordance with the rules laid down there. We would like to point out that it is in the sole responsibility of the manufacturer of the final material or article to assure the compliance with the OML/SML requirements under actual and foreseeable conditions of use, and to check it on a regular basis. The manufacturer of food contact materials or articles, containing this product as a component, must in particular ascertain that these finished materials or articles meet the general regulatory requirement that they do not endanger human health, or bring about an unacceptable change in the composition of the food or deterioration in the organoleptic characteristics thereof.

All information are intended for persons having the required skill and know-how and do not relieve you from verifying the suitability of the information given for a specific purpose prior to use by testing, which should be carried out only by qualified experts. Use or application of such information is at your sole responsibility and risk, without any liability on the part of Evonik Resource Efficiency GmbH.
Regulation (EU) 10/2011

TEGO® Rad 2800 as an additive is not in compliance with EU-Regulation 10/2011 on plastic materials and articles intended to come into contact with food and its amendments, as some components are not included in the Union List as such.

BfR Recommendations

The components of TEGO® Rad 2800 are not in compliance with BfR-Recommendation XIV (polymer dispersions).

The components of TEGO® Rad 2800 are not in compliance with BfR-Recommendation XV (silicones).

Swiss Ordinance (SR 817.023.21)

TEGO® Rad 2800 is in compliance with the “Ordinance of the FDHA on Materials and Articles (SR 817.023.21)” - status 1 May 2017. All components (additives and / or monomers) are listed in Annex 10 in the lists for not evaluated (B) substances.

10ppb limit applies.

21 CFR FDA Regulations

TEGO® Rad 2800 can be used in compliance with the following section(s) and may be subject to any applicable limitations:

- 175-105
- 175-125

China National Food Safety Standard

TEGO® Rad 2800 is not in compliance with China National Food Safety Standards.

FURTHER REGULATORY INFORMATION REFERRING TO FINAL MATERIALS OR ARTICLES

DIN EN 71-3 : 2013 (Safety of Toys: Migration of certain elements)

We do not expect the presence of substances mentioned in DIN EN 71-3: 2013 in amounts exceeding the respective limits within TEGO® Rad 2800.

We do not expect the presence of substances mentioned in Directive 2011/65/EC amended through Directive (EU) 2015/863 in amounts exceeding the respective limits within this product.
We do not expect the presence of substances mentioned in Council Directive 94/62/EC in amounts exceeding the respective limits within this product.

Coalition of North Eastern Governors (CONEG)
We do not expect the presence of substances mentioned in CONEG in amounts exceeding the respective limits within this product.

California Proposition 65
For information regarding the above mentioned regulation please refer to the US-MSDS under point 15.

ADDITIONAL INFORMATION

Biocides Content
Herewith we confirm that we do not use biocides for TEGO® Rad 2800 preservation!

SVHC substances
We as a supplier of chemical substances or mixtures thereof are obliged to provide our customers with a Safety Data Sheet which includes information, if the product contains dangerous substances in reportable amounts according to EU regulations.
ECHA (European Chemicals Agency) regularly updates its Candidate List of Substances of Very High Concern for Authorization. For information regarding hazardous components of products supplied to you, please refer to our newest EU Safety Data Sheet which will be updated according to the legal obligations.

VOC (volatile organic compounds) / Semi Volatile compounds (sVOCs)

VOC (volatile organic compounds) - content
No data available

SVOC content (semi-volatile organic compounds) - content
No data available
Diverse substances

Unless other stated under “Remarks” we do not expect the presence of the following substances within TEGO® Rad 2800:

<table>
<thead>
<tr>
<th>Substance</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>1,2-dichlorobenzene (CAS 95-50-1)</td>
<td></td>
</tr>
<tr>
<td>Acetaldehyde (CAS 75-07-0)</td>
<td></td>
</tr>
<tr>
<td>Acrylates:</td>
<td></td>
</tr>
<tr>
<td>- BDDA (butanediol diacrylate) (CAS 1070-70-8)</td>
<td></td>
</tr>
<tr>
<td>- DEGDA (diethylene glycol diacrylate) (CAS 4074-88-8)</td>
<td></td>
</tr>
<tr>
<td>- 2EHA (2-ethyl hexy acrylate) (CAS 103-11-7)</td>
<td></td>
</tr>
<tr>
<td>- IDA (iso decyl acrylate) (CAS 1330-61-6)</td>
<td></td>
</tr>
<tr>
<td>- ODA (octyl acrylate) (CAS 2499-59-4)</td>
<td></td>
</tr>
<tr>
<td>- Phenol acrylate (CAS 937-41-7)</td>
<td></td>
</tr>
<tr>
<td>- Phenoxy ethyl acrylate (CAS 48145-04-6)</td>
<td></td>
</tr>
<tr>
<td>- HDDA (1,6 Hexanediol diacrylate) (CAS 13048-33-4)</td>
<td></td>
</tr>
<tr>
<td>- PETA (mixtures of pentaerythritol tri- and tetra-acrylates) (CAS 3524-68-3)</td>
<td></td>
</tr>
<tr>
<td>- TEGDA (tetraethylene glycol diacrylate) (CAS 17831-71-9)</td>
<td></td>
</tr>
<tr>
<td>- TMPTA (trimethylol propane triacrylate) (CAS 15625-89-5)</td>
<td></td>
</tr>
<tr>
<td>- DPGDA (dipropylene glycol diacrylate) (CAS 57472-68-1)</td>
<td></td>
</tr>
<tr>

Disclaimer

The information given above is based on and represents our current compositional knowledge (based on the knowledge of the production process, supplier information for raw materials and analytical data where applicable).
Please note that Evonik Resource Efficiency GmbH does not analyse whether the mentioned substances are contained, because the content of such substances is not part of our product specification or formulation.
We use raw materials of technical purity, therefore negligible amounts on the level of natural / technical impurities cannot be excluded.
In case of provided values these are considered to be typical concentrations and are not part of the product specification.

All provided information is based on our present knowledge and experience and is true and complete to the best of our knowledge and belief. However, no warranty, whether expressed or implied, or guarantee of product properties in the legal sense is intended or implied.

In case of any questions concerning the provided information or if you need additional advice you are welcome to contact us:
